Pre-K Outdoor Challenge

Color the arrows when you finish the task and have an adult write descriptions if you want. See if you can do everything in one day!

1. Find something in nature shaped like a circle, a rectangle and a triangle.
2. Stack more than five rocks on top of each other without having them fall. How many did you stack?
3. Hug a tree! Do you know what kind of tree it is? Give your tree a special name.
4. Freeze in place for one minute, then name three things you heard.
5. Write your name using sticks and pebbles on the ground.
6. See how far you can hop on just your right leg. Now see how far you can hop on just your left leg. Which leg was easiest for you?
7. Find four things in your yard or neighborhood that show us spring is coming.
8. Make a handprint in the snow or mud. Now go wash your hands!
